

Assignment 4

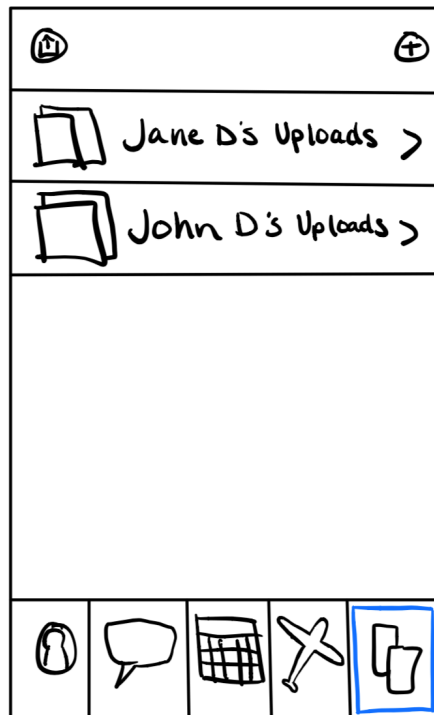

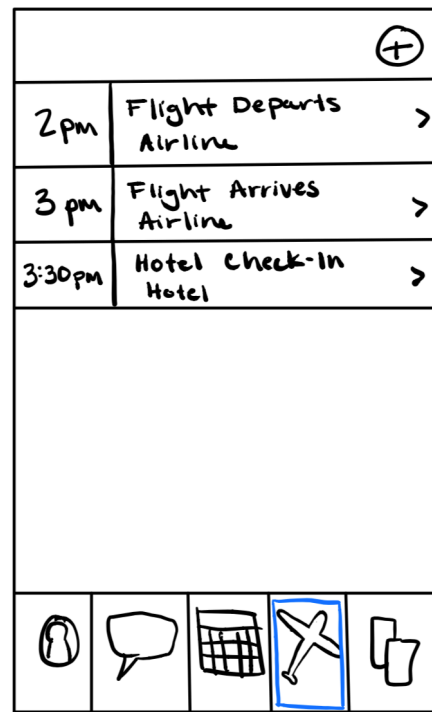

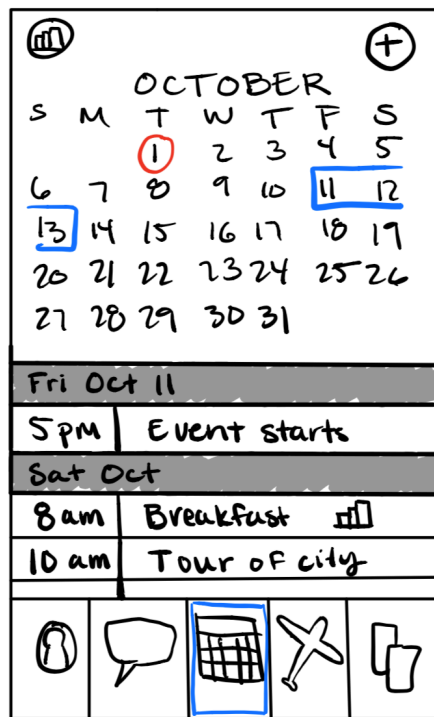

1. Have you ever tried to coordinate a trip with a couple of friends or family members but struggled with organizing the event or getting all the needed details to everyone? I'm creating an app where a group of people can organize their event together. They will have a shared place to store trip information, photos and even locations while on a trip!
2. GroupTravel
3. GroupTravel is for groups needing extra help organizing an event and needing a place to share the experience together. Events can be created or be invited to events and upload photos and videos for everyone to have! Have a place to share flight and hotel information with the whole group or choose to only share with travel partners.

GroupTravel features:

- Group message: send messages to the whole group or create subgroups.
- Shared calendar: organize activities and even create polls.
- Share photos and videos: everyone gets a copy.
- Safety: send your location to the group if you get separated!
- Countdown to event: build anticipation!

4.

Needs a lot more than 54 characters for keywords since it's one of the only ways to find your app

5. group travel destination event organize party reunion
6. Travel

I think this idea is great. There's definitely plenty here technically if you implement it. The idea is original enough and it seems like it's going to fulfill the creativity requirement quite well. I love the screens and how detailed they are.
